

DRILLING TO COMMENCE AT CASHMANS

RNI NL (ASX: RNI) is pleased to announce the reverse circulation (RC) drilling program is about to commence on key copper-gold targets at the Company's Cashmans Project in Western Australia's Bryah Basin.

This follows the receipt of Heritage sign-off and final access approvals, as outlined in the ASX update of 11 August 2016.

Targets to be drilled in the ~2,000 metre RC program include Beatty Park, Orient, T10¹, Highway, Little Creatures, T2¹, T5¹ and T6¹ (Figure 1) (Refer ASX announcements 7 July 2016 and 17 March 2016).

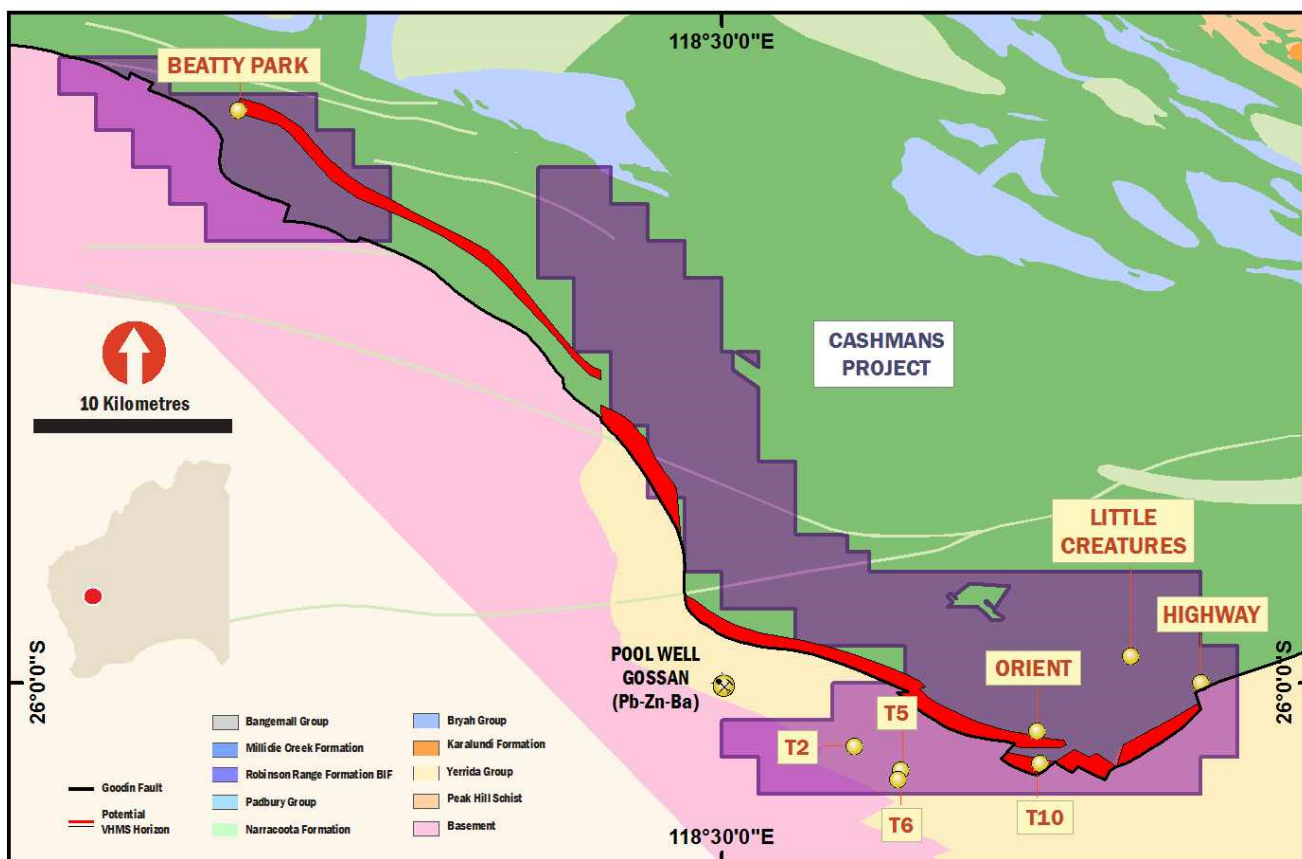

Figure 1: Key copper-gold drilling targets to be drilled within the Cashmans Project

For and on behalf of the RNI Board.
