

## OPTION TO ACQUIRE 560,000oz PEAK HILL GOLD PROJECT

**RESOURCE AND INVESTMENT NL** (ASX: RNI) (RNI or the Company) has reached agreement with Montezuma Mining Company Limited for an option to acquire control of the historic Peak Hill Gold Project, approximately 125km north of Meekatharra in Western Australia.

Peak Hill comprises mining leases and prospecting and exploration licences covering a total of 211km<sup>2</sup> which contain JORC compliant gold resources of more than 560,000 ounces in a series of historic open pits (based on 11.52Mt @ 1.51g/t) (Annexure B).

Peak Hill adjoins leases within RNI's 2,225km<sup>2</sup> Grosvenor Project, which hosts JORC compliant gold resources of 1.2 million ounces. This gives a combined gold inventory of more than 1.7 million ounces.

RNI is refurbishing the 1Mtpa Grosvenor gold plant, which is scheduled to resume production in 2013. The Peak Hill deal is in line with RNI's strategy of unlocking stranded gold deposits in the area as the Company continues its gold and base metals exploration programs.

RNI plans to review the Peak Hill gold resources to assess whether they may be suitable to include in the Company's long-term mining plan for the refurbished Grosvenor gold plant.

## Agreement Terms

RNI, through wholly owned subsidiary Grosvenor Gold Pty Ltd (GGPL), has reached agreement to pay Montezuma (ASX: MZM) \$100,000 for an option to acquire wholly owned subsidiary Peak Hill Metals Pty Ltd (PHMPL), which holds leases comprising the Peak Hill Gold Project (Annexure A). Approximately 547,000 ounces of the Peak Hill gold resources are attributable to Peak Hill Metals Pty Ltd and thus covered by the option with RNI.

The option to acquire PHMPL is for an initial period to 29 March 2013. The Company will have the right to extend the option period to 28 June 2013 on payment of an option extension fee of \$50,000.

The grant of the option under the Option Agreement is conditional on various transfers, assignments and documents being completed and Montezuma's shareholders approving the sale of PHMPL to GGPL.

During the period of the option, GGPL will be required to carry out exploration on the tenements at its own expense that is sufficient to meet all prescribed expenditure commitments for the period concerned.

Should GGPL exercise the option to acquire PHMPL, the consideration to be paid to Montezuma will be \$2.8 million, 8.4 million fully paid ordinary RNI shares and 2.1 million unlisted \$0.75 RNI options exercisable within 3 years from the date of issue.

In addition, GGPL will pay Montezuma a gross royalty of 1% of all revenue received from the sale or disposal of ore from the Peak Hill project tenements to a limit of \$1 million.

Further details of the Peak Hill project resource inventory and classification are set out in Annexure B attached.

## About RNI

Resource and Investment NL is on target to begin gold production in 2013 from the 100% owned Grosvenor Gold Plant, 170km north-west of the historic West Australian mining region of Meekatharra. The Grosvenor plant is supported by a near-mine gold inventory of 1.2Moz based on 16.6 million tonnes @ 2.2g/t.

RNI continues to prioritise gold and base metals drilling targets across its highly-prospective 2,225km<sup>2</sup> Grosvenor Project in Western Australia's Bryah Basin. The Company is also preparing to drill priority base metals targets at the neighbouring Horseshoe Lights East Project, which adjoins the old Horseshoe Lights VMS copper-gold mine.
